செயலாளர்

Facilities offered at different categories of Medical Care Institutions - 2020

1. Introduction

In Sri Lanka, the curative healthcare delivery is primarily carried out by the Government Hospitals. These hospitals are graded as Teaching Hospitals, Provincial General Hospitals, District General Hospitals, Base Hospitals A & B, Divisional Hospitals and Primary Medical Care Units. Consultant led care is made available down to the level of Base Hospitals and in some instances to Divisional Hospitals where Consultant Family Physicians are placed.

At present, all Medical Specialties are approved as Medical Specialists by the Department of Management Services. The Ministry of Healthcare & Indigenous Medical Services has developed a norm for the required cadre by specialty for Base Hospitals and above.

The general circular No. 02-61/2005 on hospital re-categorization, dated 11th May, 2005 indicates the number of specialized units that should be available in Teaching Hospitals, Provincial General Hospitals, District General Hospitals and Base Hospitals. Since then, the disease burden and health needs in the country have changed considerably due to changes in the demographic profile and life style. To cater to this demand, several new specialties and sub-specialties have been introduced to the postgraduate training in Sri Lanka. Many doctors have been successfully trained locally as well as overseas as consultants to deliver the services required by the population. The specialists in these new specialties and sub-specialties have to be placed at the correct levels of healthcare institutions in order to optimize their services. Thus, it is important to update the facilities that should be offered at different categories of health institutions in Sri Lanka. Determining cadre required from each specialty for each category of hospital would enable the provision of infrastructure and training of the required number of doctors to fill those vacancies. This would result in the proper distribution of specialist services throughout the country.

The Essential Services Package (ESP) has been identified as a tool to achieve Universal Health Coverage and the ESP specifies the services that should be made available at different categories of hospitals. Further, a list of posts of Medical Specialists were approved by the Cabinet of Ministers on 10th February, 2010 for the Cabinet Memorandum No. 10/0317/360/009. The revisions to the circular have been made taking into consideration the list of specialties approved by the Cabinet of Ministers and the ESP.

2. The Objective

To make amendments to the general circular No. 02-61/2005, dated 11th May, 2005 on facilities to be offered at different types of hospitals

3. The Process

- The hospital re-categorization circular No. 02-61/2005, dated 11th May 2005 which indicates the facilities offered at different categories of medical care institutions and the number of specialized units that should be available in Teaching Hospitals, Provincial General Hospitals, District General Hospitals and Base Hospitals was scrutinised.
- Organization and Development Unit identified the specialties that should be available in Base Hospitals and above following consultative meetings with relevant Colleges.

- The specialties and sub specialties for which the Post Graduate Institute of Medicine (PGIM) awards postgraduate qualifications were obtained from the PGIM website.
- The number of medical specialists in position hospital-wise was obtained from Deputy Director General (Medical Services I).
- The essential services that should be provided by each type of hospital was obtained from the ESP.
- A series of consultative meetings was conducted with officials of the Ministry of Health to discuss the facilities that should be available at different categories of medical care institutions.
- Following the discussions, the type of facilities that should be made available, including the specialized services down to the grade of Base Hospitals were decided and concluded as stated below.

4. The Outcome

The general circular No. 02-61/2005, dated 11th May, 2005 was amended as follows.

The nomenclature of hospitals

- **National Hospitals**
- **Teaching Hospitals**
- **Specialized Hospitals**
- **Provincial General Hospitals**
- **District General Hospitals**
- **Base Hospitals A and B**
- **Divisional Hospitals A, B & C**
- **Primary Medical Care Units**

The list of hospitals under each category is given in Annex II.

5. Facilities offered at different categories of Medical Care Institutions

Minimum facilities recommended to be made available at different levels of curative medical institutions in order to maintain equity are given in Annex I. However, additional facilities may be provided depending on specific needs.

Facilities offered at Primary Medical Care Units

1. Emergency Care Unit to provide following services
 - Identification and stabilization of emergency cases
 - Resuscitation with basic life support measures
 - Referral: communication and transportation
 - Management of minor emergencies
2. Outpatient Department to provide following services
 - Management of common conditions.
 - Facilities for conducting a polyclinic including Ante-natal, Post-natal, Family Planning, Child Health, Well Women and Medical Clinics etc.
 - Minor Surgical Procedures
 - Oral Healthcare
 - Referral to higher leveland a Healthy Lifestyle Centre
3. Facilities for continuation of treatment of patients referred by secondary and tertiary medical institutions
4. Rehabilitation care facilities
 - Assessment of rehabilitation requirements in selected delivery sites
 - Referral to Rehabilitation Departments / Hospitals
5. Palliative Care
 - Counselling for patients and their families
 - Support to self-help groups
 - Control of acute and chronic pain
 - Delivery of home-based palliative care only at selected delivery sites
6. Basic Laboratory Services
 - Chemical Pathology -Blood Sugar, Total Cholesterol, Urine Albumin
 - Collection of samples for UFR, Lipid profile, HbA1C, Serum Creatinine, Blood Grouping, FBC, ESR, Pap smear, VDRL as per ESP
 - Sputum AFB, HIV rapid test, Malaria RDT and microscopy (selected)
7. Diagnostic Tools- ECG facilities
8. Pharmacy
9. Health Services linked to the prevention and management of communicable diseases as per ESP.
10. Health Services linked to the prevention and management of non-communicable diseases as per ESP.

Facilities offered at Divisional Hospitals

1. Accident and Emergency Care Unit to provide following services
 - Identification and stabilization of emergency cases
 - Resuscitation with basic life support measures
 - Referral: communication and transportation
 - Management of minor emergencies

2. Outpatient Department to provide following services
 - Management of common conditions.
 - Facilities for conducting a polyclinic including Ante-natal, Post-natal, Family Planning, Child Health, Well Women etc.
 - Specialized clinics on Medicine, Obstetrics & Gynaecology, Paediatrics & Surgery.
 - Oral Healthcare
 - Services of a Consultant Family Physician to be made available only at selected delivery sites.
 - Referral to higher level.

and a Healthy Lifestyle Centre

3. Inward facilities
Divisional Hospital A
 - 1 maternity ward
 - 1 male medical ward
 - 1 female medical ward
 - 1 male surgical ward
 - 1 female surgical ward
 - 1 children's ward

Divisional Hospital B

 - 1 maternity ward
 - 1 male medical and surgical ward
 - 1 female medical and surgical ward
 - 1 children's ward

Divisional Hospital C

 - 1 male ward
 - 1 female ward

4. Minor operation facilities

5. Labour room facilities

6. Facilities for continuation of treatment of patients referred by secondary and tertiary medical institutions

7. Rehabilitation care facilities
 - Assessment of rehabilitation requirements of patients
 - Community Based Rehabilitation available only at selected delivery sites
 - Physiotherapy available only at selected delivery sites

- Referral to Rehabilitation Departments / Hospitals
8. Palliative Care
- Counselling for patients and their families
 - Support to self-help groups
 - Control of acute and chronic pain
 - Delivery of palliative care at intermediate units available only at selected delivery sites, under shared care of Consultant at Apex Hospital
 - Delivery of palliative care at Divisional Hospital
 - Delivery of home-based palliative care available only at selected delivery sites
9. Basic Laboratory Services
- Chemical Pathology, Haematology, Histology and Cytology, Microbiology as per ESP
10. Radiology & Other Diagnostic Tools
- ECG
 - Ultrasounds other than obstetrics US on priority basis
 - Simple Radiology
 - Spirometry
- } To be made available only at selected delivery sites
11. Pharmacy
12. Health Services linked to the prevention and management of communicable diseases as per ESP.
13. Health Services linked to the prevention and management of non-communicable diseases as per ESP.
14. Ambulance

Services of visiting consultants will be made available in some of these hospitals through outreach clinics

Facilities offered at Type B Base Hospitals

The proposed facilities for Type B Base Hospitals are as follows:

1. Out Patient Department with separate Preliminary Care Unit, Accident and Emergency Care Unit, Oral Health Unit and Healthy Lifestyle Center

2. Clinic facilities

3. In ward facilities

- 1+1 Medical Unit - Consultants 1+1
- 1+1 Surgical Unit - Consultants 1+1
- 1+1 Obstetrics & Gynaecology Unit - Consultants 1+1
- 1+1 Paediatric Unit - Consultants 1+1
- 1 Anaesthesia Unit
- 1 Psychiatry Unit
- 1 Eye Surgical Unit

Second post can be filled after filling the first post in all Type B Base Hospitals

4. Intensive Care Unit

5. Operation Theatres

One theatre complex comprising of 1 theatre for gynaecology and surgery a separate eye theatre and a theatre table for caesarean sections and a theatre table for casualties

6. Diagnostic Services

- Radiology Unit – 1 Radiologist
- Pathology Unit with 1 Histopathology Unit

7. Dermatology Unit

8. Pharmacy

9. Blood Bank

10. Medical Records Unit/ Health Information Management Unit

11. Planning Unit

12. Quality Management Unit

13. Health Promotion Unit

14. Infection Control Unit

1 Nephrology Unit for BHB Padaviya, BHB Kebithigollewa, BHB Welikanda, BHB Hingurakgoda, BHB Galgamuwa, BHB Polpithigama, BHB Medirigiriya and BHB Medawachchiya depending upon the service requirement.

Facilities offered at Type A Base Hospitals

The proposed facilities for Type A Base Hospitals are as follows:

1. Out Patient Department with separate Preliminary Care Unit, Accident and Emergency Care Unit and screening facilities
 - 1 VP/OPD (The post of VP/OPD should be filled after filling the posts of 2 inward physicians in all Type A Base Hospitals)
 - 1 Oral Health Unit
 - 3 Emergency Physicians
2. Clinic facilities
3. In ward facilities
 - 2 Medical Units
 - 2 Surgical Units
 - 2 Obstetrics & Gynaecology Units
 - 2 Paediatric Units
 - 1 Anaesthesia Unit – 2+ 1 Consultant Anaesthetists (After filling the second post in all BHAs.)
 - 1 Psychiatry Unit
 - 1 ENT Surgical Unit
 - 1 Eye Surgical Unit
 - 1 Dermatology Unit
 - 1 Geriatric Medical Unit
 - 1 Cardiology Unit
 - 1 Neurology Unit
 - 1 Respiratory Medicine Unit
 - 1 Oral and Maxillo Facial Surgery Unit
 - 1 Transfusion Medicine Unit – Only for selected hospitals
 - 1 Orthopaedic Surgical Unit – Only for selected hospitals
 - High Dependency Units in wards
4. Intensive Care Units
 - Medical Intensive Care Unit (MICU)
 - Surgical Intensive Care Unit (SICU)
5. Operation Theatres – One theatre complex with the same criteria as BHB but number of theatre tables depending on the number of surgeons and VOGs
6. Diagnostic Services
 - Radiology Unit – 2 Radiologists (Second post to be filled only if a CT is available)
 - Pathology Unit with 1 Histopathology Unit, 1 Clinical Haematology Unit and 1 Medical Microbiology Unit.
7. Medico-Legal Unit – 1 Consultant JMO

8. Venereology Services
9. Pharmacy
10. Blood Bank
11. Medical Records Unit/ Health Information Management Unit
12. Planning Unit
13. Quality Management Unit
14. Health Promotion Unit
15. Infection Control Unit

1 Nephrology Unit for BHA Dehiattakandiya and BHA Thambutthegama depending upon the service requirement.

Facilities offered at District General Hospitals

The proposed facilities for District General Hospitals are as follows:

1. Out Patient Department with separate Preliminary Care Unit, Accident and Emergency Care Unit and screening facilities
 - 1 VP / OPD
 - 1 Paediatrician OPD
 - 3 Emergency Physician
 - 1 Oral Health Unit
2. Clinic facilities
3. In ward facilities and other Specialized Services
 - 2 Medical Units
 - 2 Surgical Units
 - 2 Obstetrics & Gynaecology Units
 - 2 Paediatric Units
 - Anaesthesia Unit - 3 Consultant Anaesthetists (2+1) – To fill the third post after filling the cadres of base hospitals.

Depending on the workload, an additional consultant can be appointed

 - 1 Psychiatry Unit
 - 1 ENT Surgical Unit
 - 1 Eye Surgical Unit
 - 1 Dermatology Unit
 - 1 Respiratory Medicine Unit
 - 1 Rheumatology & Rehabilitation Unit
 - 1 Geriatric Medical Unit
 - 1 Gastroenterology Unit
 - 1 Genito Urinary Surgical Unit
 - 1 Orthopaedic Surgery Unit (Orthopaedic Surgeon 1+1 according to service need)
 - Cardiology Unit - 1+1 (Second post to be filled after filling the first post in all District General Hospitals)
 - 1 Neurology Unit
 - 1 Nephrology Unit
 - 1 Endocrinology Unit
 - 1 Paediatric Neonatology & Perinatal Medicine Unit
 - 1 Pain Management Unit / Palliative Care Unit
 - 1 Transfusion Medicine Unit
 - Venereology Services
 - 1 Clinical Nutritionist
 - 1 Oncology Unit (Only Clinical Oncology)
 - 1 Oral & Maxillo Facial Surgery Unit
 - High Dependency Units in wards
4. Intensive Care Units – 2 Critical Care Specialists

- Medical Intensive Care Unit (MICU)
 - Surgical Intensive Care Unit (SICU)
5. Operation Theatres – Two theatre complexes
 6. Diagnostic Services
 - Radiology Unit – 2 Radiologists
 - Pathology Unit with 1 Histopathology Unit, 1 Clinical Haematology Unit, 1 Chemical Pathology Unit and 1 Medical Microbiology Unit.
 7. Medico-legal Unit – 1 Consultant JMO
 8. Orthodontic Unit
 9. Restorative Dentistry Unit
 10. Blood Bank
 11. Pharmacy
 12. Medical Records Unit/ Health Information Management Unit
 13. Planning Unit
 14. Quality Management Unit
 15. Health Promotion Unit
 16. Infection Control Unit
 17. Public Health Unit

Facilities offered at Specialized Hospitals

Facilities offered at Specialized Hospitals will depend on the Specialty and the Service Need of each hospital.

Facilities offered at Teaching / Provincial General Hospitals

The proposed facilities for Teaching / Provincial General Hospitals are as follows:

1. Out Patient Department with separate Preliminary Care Unit, Accident and Emergency Care Unit and screening facilities
 - 2 VPs / OPD
 - 1 VS / OPD
 - 1 Paediatrician OPD
 - 3 Emergency Physicians
 - 1 Oral Health Unit

2. Clinic facilities

3. In ward facilities
 - 3 Medical Units – 6 VPs (Additional units only for CSTH, CNTH, TH Karapitiya & TH Jaffna)
 - 3 Surgical Units – 3 VSs (Additional units only for CSTH, TH, Karapitiya, & TH Jaffna)
 - 3 Obstetrics & Gynaecology Units - 3 VOGs (Additional units only for TH Jaffna, CSTH, CNTH, TH Batticaloa, & TH Anuradhapura)
 - Gynaecological Oncologist
 - Subfertility Specialist
 - 3 Paediatric Units
 - 3 Paediatricians (Additional units only for TH Karapitiya & TH Jaffna)
 - Paediatric Neonatologist
 - Paediatric Cardiologist
 - Paediatric Endocrinologist
 - Paediatric Nephrologist
 - Paediatric Neurologist
 - Paediatric Pulmonologist
 - Clinical Genetics

} Only for selected hospitals

 - 1 Paediatric Surgical Unit
 - 2 Cardiology Units - 2 Cardiologists (4 Cardiologists only if a Cath Lab is available.)
 - 1 Cardiac Electrophysiology Unit
 - 2 Neurology Units
 - 2 Neurologists
 - 1 Clinical Neuro Physiologist
 - 2 Nephrology Units
 - 2 Endocrinology Units

- 1 Gastroenterology Unit
- 1 Respiratory Medicine Unit
- 1 Rheumatology & Rehabilitation Unit
- 1 Rehabilitation Center
- 1 Stroke Unit
- 1 Geriatric Medical Unit
- 2 Genito Urinary / Urological Surgical Units
- 1 Vascular / Transplant Surgery Unit
- 2 Neuro Surgery Unit
- 1 Thoracic Surgery Unit
- 2 Plastic and Reconstruction Surgery Units
- 1 Surgical Oncology Unit
- 2 Gastrointestinal Surgical Units
- 1 Cardiothoracic Surgical Unit
- 2 Orthopaedic Surgery Units (2+1 Additional post after filling the second post in all THs)
- 2 ENT Surgical Units
- 2 Eye Surgical Units (Additional units in TH Karapitiya, TH Jaffna, PGH Kurunegala & TH, Anuradhapura)
 - General Ophthalmologists
 - Vitreo-Retinal Surgeon
 - Paediatric Ophthalmologist
 - Cornea & External Eye Disease Surgeon
 - Orbit & Oculoplasty Surgeon
- 1 Oral & Maxillo Facial Surgery Unit
- 2 Psychiatry Units
 - General Psychiatrists
 - Forensic Psychiatrist
 - Child and Adolescent Psychiatrist
 - Old age Psychiatry
 - Addiction Psychiatry
- 2 Dermatology Units
- 1 Transfusion Medicine Unit
- 2 Oncology Units (Additional unit for TH Karapitiya and TH Jaffna)
 - Clinical Oncologists
 - Paediatric Clinical Oncologist
 - Haemato-Oncologist

} Only for selected hospitals

- High Dependency Units in wards
4. Intensive Care Units – Critical Care Specialists
 - Medical Intensive Care Unit (MICU)
 - Surgical Intensive Care Unit (SICU)
 - Cardiac Intensive Care Unit (CICU)
 - Coronary Care Unit (CCU)
 - Paediatric Intensive Care Unit
 - Neuro Surgical Intensive Care Unit (NSICU)
 5. Operation Theatres
 6. Diagnostic Services
 - Radiology Dept.
 - General Radiologists
 - Interventional Radiologists
 - Paediatric Radiologists (Only for Paediatric Hospitals)
 - Neuro-Radiologists
 - Pathology Dept. with 2 Histopathology Units, 2 Clinical Haematology Units, 1 Chemical Pathology Unit, 1 Oral Pathology Unit¹
 - 2 Medical Microbiology Units
 - Medical Microbiologists
 - Mycologist
 - Medical Parasitologist
 - Medical Virologist
 7. Dept of Anaesthesia
 - General Anaesthesia
 - Cardiothoracic Anaesthesia
 - Neuro Anaesthesia
 - Obstetric Anaesthesia
 - Paediatric Anaesthesia
 - Intensive Care
 - Critical Care Medicine
 - Pain Management
 - Transplant and Critical Care
 8. Medico-legal Unit - 2 Judicial Medical Officers
 9. 1 Venereology Unit in TH Jaffna, TH Batticaloa, PGH Badulla, TH, Kuliypitiya

¹ Oral Pathology only in Teaching Hospitals, Jaffna, Karapitiya, Batticaloa and Anuradhapura and Provincial General Hospitals Kurunegala and Badulla

10. Orthodontic Unit
11. Restorative Dentistry Unit
12. Clinical Nutritionist
13. Sport and Exercise Medicine Unit
14. Blood Bank
15. Pharmacy
16. Medical Statistics Unit/ Health Information Management Unit
17. Planning Unit
18. Quality Management Unit
19. Health Promotion Unit
20. Infection Control Unit
21. Public Health Unit

Facilities offered at National Hospitals

The following criteria have to be fulfilled for designating a health institution as a National Hospital.

1. Administration, Ownership or Control

- The hospital should be owned and administered by Central government via the Ministry of Health

2. Size of the hospital:

- Based on bed capacity and bed occupancy
 - o The hospital should have a minimum in-patient bed number of 2500
 - o Number of specialized units – more than 50
 - o Number of ICU beds over 100

3. Based on functionality

- Type of care:
 - o The hospital should function as a tertiary referral center for primary and secondary healthcare institutions
 - o The hospital should provide referral services in highly specialized areas to other specialties and/or to other tertiary-level hospitals
 - o The hospital should be the final referral institution (An apex centre of care)
 - o A & E with consultants rostered round the clock
 - o Round the clock functioning of any surgical and medical emergencies, emergency interventions interventional radiological procedures, emergency cardiology interventional procedures including stenting
 - o Should have an adverse event reporting system and fixing the system based on the root cause analysis

4. By teaching affiliation:

- The hospital should provide teaching/training facilities to medical/dental and allied health (nursing/dental/pharmacy/physiotherapy etc.) education at undergraduate and postgraduate levels.
- The hospital should provide clinical audit, multidisciplinary team meetings, research and publication and CME programmes

5. Based on hospital statistics

- OPD attendance – over 350,000
- Annual admissions (Including ETU) – over 200,000
- Clinic attendance – over 1 million
- Bed turnover over 90%

6. Based on number of employee (permanent/casual)

- Over 5000 (Medical, nursing, allied and supportive or other)

7. Based on annul expenditure

- Should be over Rs 10 billion per annum

8. Based advanced technology

- All types of radiological interventions including MRI, CT, CAT, Cath lab, Pacemaker lab, Intervention radiology, Fluoroscopy, Mammography that are available in the public sector
- Advanced biochemistry lab, Advanced microbiology lab, Advanced Haematology lab, Advanced histopathology and virology lab excluding those that require specialized laboratories

9. Based on availability of modern / advanced medical and surgical care

- Such as multiorgan transplant program
- Revision arthroplasty in Orthopaedic surgery etc.

10. Based on the use of advanced IT for patient care

- Established digitalization program
- All ambulatory care services (OPD, and clinics) should have programmed waiting times

Officials of the working group

- Dr. Anil Jasinghe
Director General of Health Services
- Dr. S. Sridharan
Deputy Director General (Planning)
- Dr. T. B. Ananda Jayalal
Deputy Director General (Dental Services)
- Dr. Chandana Gajanayake
Director (TCS)
- Dr. Anil Samaranayake
Director (Health Information)
- Dr. A. M. J. Abeynayake
Deputy Director (TCS)
- Dr. Prasad Ranaweera
CCP, Organization and Development Unit
- Dr. Sunil de Alwis
Additional Secretary (Medical Services)
- Dr. Lal Panapitiya
Deputy Director General (Medical Services I)
- Dr. Eshani Fernando
Director Planning
- Dr. Vindya Kumarapeli
Director (Policy Analysis & Development)
- Dr Anver Hamdani
Acting Director (TCS)
- Dr. Dileep de Silva
Head / Human Resource Coordination Unit
- Dr. Surupini Samuel
