Such materials should illustrate clearly the nature of work carried out, the results achieved, the difficulties and obstacles encountered, and the solutions proposed and implemented; they need not necessarily have been published in a scientific or other journal.  - (d) innovative efforts in training and education of health workers in health care for the elderly and health promotion activities;
 - (e) successful and effective efforts in involving communities in planning, management and evaluation of health care for the elderly and health promotion programmes;
5. The candidate/candidates nominated for the Prize must be intimately and directly connected with the efforts and achievements in a given area.

6. To facilitate the assessment of the work done and the accomplishments, the most recent and pertinent publications and/or documentation directly related to the work should be submitted along with the nomination. Such materials should illustrate clearly the nature of the work carried out, the results achieved, the difficulties and obstacles encountered, and the solutions proposed and implemented; they need not necessarily have been published in a scientific or other journal. Inadequate or inappropriate documentary evidence of the work carried out will greatly handicap the Selection Panel in the assessment of the candidature.
7. To further support the documentary evidence, if necessary, the Administrator, on behalf of the Selection Panel, reserves the right to examine the work done by the candidate/candidates and to seek further information from independent sources.
8. Current and former staff members of the World Health Organization, and current members of the Executive Board, shall be ineligible to receive the Prize.
9. There should not be more than two recipients of the Prize per year. If two candidates are considered eligible by the Selection Panel and selected to receive the Prize, the sum will be equally divided between them.
10. These guidelines will be reviewed and updated periodically as considered appropriate.
